💡 Tips

- **Prep ahead** — wood ear mushrooms & kelp need to be soaked in water for 30 min before cooking
- **Thin meat slices** — just swish a few times in the broth and they're done. Overcooking makes them tough!
- **Shrimp paste** — scoop with a spoon and gently drop into the broth, wait until it floats
- **Crispy pork & dough sticks** — add near the end, they soak up broth beautifully but get soggy fast
- **Noodles** — save for the end! The broth is richest after cooking all the other ingredients
- **Dipping sauce** — we have pre-made bags (original & spicy). Add vinegar, sesame oil, garlic, or wasabi to taste
- **Hygiene** — use the shared serving chopsticks to put raw food in the pot, your own chopsticks to eat
- **Don't overcrowd** the pot — cook in small batches for best results

Happy Lunar New Year!
